

Floccin

REMOVES CONTAMINANTS
FROM ALL TYPES OF WATER

The Floccin line of products provides the following benefits:

- Meets US EPA Toxicity Characteristic Leaching Procedure (TCLP) (toxicity testing)
- Works Over a Very Broad pH Range (4 to 12)
- Consistent Dosing
- Cost Efficient
- Increased Flocculent (Floc) Size For Quicker and More Complete Clarification

Effective For:

- Removing contaminants from waste streams, ditch channels and sediment basins

Terra Novo's Floccin™ product line cost-effectively removes contaminants from water. Available in snakes or bags, Floccin is designed to work in all types of water through a sequential process.

The individual components of Floccin are either NSF 60 approved or GRAS affirmed, and the blended product is currently under submission to obtain NSF 60 approval as a combination of preapproved products.

Reduces

- Quantity of Chemicals
- Impact on TDS/EC

Increases

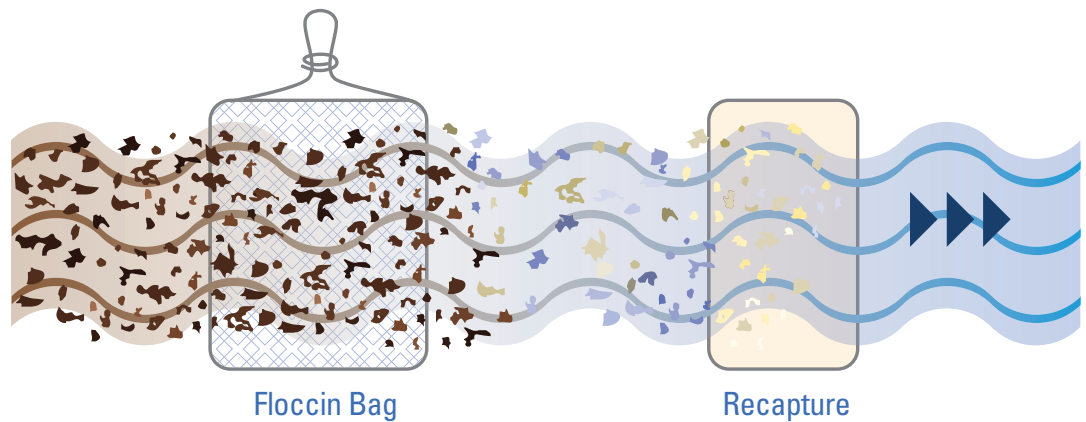

- Settling Rates
- Hydraulic Capacity
- Heavy Metals Removal and Recovery
- BOD/TSS Removal

Floccin is available in either bags or snakes.

A single 4-pound mesh Floccin Bag can typically treat 10,000 gallons of water and decrease Nephelometric Turbidity Units (NTU) from 1,000 to less than 20.

Floccin Snakes treat sediment-laden water upstream to prevent polluted water from gathering on construction sites, settling ponds, or running off-site to shed areas, storm drains and streams.

Typical stream application:
Floccin Bag allows release of Floccin into stream for treatment and recapture

Highly **Effective.** Cost **Efficient.**

Terra Novo Manufactures

Erosion Control:

- EarthGuard®
- EarthGuard Fiber Matrix
- EarthGuard **EDGE™**

Reclamation:

- EarthGuard **FUSION™**
- EarthGuard **ORGANIX™**
- EarthGuard **ELIXIR™**

Agricultural Soil Stabilization and Conditioning

- SoilMAX
- Agriflo

Dust Suppression

- DustCap
- DustControl DG

Water Clarification

- AquaGuard

Terra Novo's engineers and chemists pride themselves on maintaining a hands-on approach to solving site-specific problems for the agriculture, reclamation and erosion-control industries with highly effective, extremely affordable and environmentally friendly product lines developed to comply with the Clean Water Act and pass acute and chronic toxicity studies.

Terra Novo products are:

- Distributed in all 50 states and Canada
- Exported internationally
- University-tested
- Worksite-proven
- Highly cost effective
